Adjournment

Arts and Culture Committee Discussion Outline: (as provided)

Murals

Targeted 29

Tentative Time Line 2023-24

Focus

- Businesses
- Alley Way
- Pocket Murals

Previously Proposed Subjects:

Flora, fauna, history, recreation, Oregon-esque designs, bright, Sasquatch (even embedded into designs)
Local to community

Discussion Goal—

In order to standardize a manageable process for best community engagement.

To create a fair and equitable process.

It is proposed:

1. The committee identifies buildings of interest.
2. Communicate with property owner(s).
3. Community Notification and deadlines set by Committee shared through media and city website.
4. Committee reviews submissions then selects submissions.
5. Property owners accept/reject submissions.
6. If accepted the property owner will sign a waiver.
7. If approved the chair or mayor will select a subcommittee leader and team to move forward.
8. If not approved by the property owner the nowhere may work with the Arts and Culture committee or sub-committee to develop an acceptable mural plan without more submissions. Any secondary murals developed for the same building site will not require public notice. Just the property owners approval.

Note that the Arts and Culture committee will hold a pre-mural meeting before a new murals work is started.

Alley Streetscape:

Situated between Main St. and Long St.; 12th and 13th Streets is an alleyway that has been in limited use or appeal by our community.

It is the goal of the City's Art and Culture committee to embrace this natural walkway and revitalize it for greater community use and enjoyment. Though creating a mural street scape.

Discussions around this venue have supported celebrating the current floral mural created for Sweet Home Florist. By focusing on flora and fauna for the surrounding businesses lining the alleyway.

The process of mural selection will follow the mural selection process while including a pre-meeting for those interested in submitting ideas for that area.

Pocket Murals:

Pocket murals are less than 1 foot in size. They maybe created or include a wide variety of surfaces and themes.

A secondary mural project program designed to create surprise and interest in murals will be conducted by a small sub committee.

Any pocket murals on buildings will require a waver from the building owner. Those created on sidewalks or city property will require approval of the city's Art and Culture committee.

Any supplies for these projects will be provided through the City or by donation.

Actions:

A request for the committee to formalize a process recommendation was made by Mayor Colman.

A proposed, tentative process was then submitted by the Chair to the Arts and Culture committee for review, discussion and edits.

Action Taken—

Motion by Lagea Mull, 2nd by Satina Tolman

Motion—To accept the tentative process plan as presented. To be edited and wordsmithed by committee member Diane Gerson. Upon completion committee members will be provided an edited electronic version for review. When a majority of committee members has had an opportunity to have seen and reviewed the proposed edits and accept any changes; the final proposed process will be submitted to the City Council.

Motion Passed (Unanimously)

Notes from August 15, 2023 Arts and Culture Meeting (these are my personal notes from mtg.)

Present: Satina Tolman, Lagea Mull, Rose Peda, Kurt Kuchinsky, Kelcey Young, Lisa Gourley

Old Business Reports
